

Hewn's Cypress is a versatile North American species selected for its exceptional workability, natural density, and dimensional stability. These physical properties make it a reliable, high-performance substrate for both interior paneling and exterior siding applications.

Available in both Clear Mixed Grain (CMG) and Clear Vertical Grain (CVG), our Cypress is expertly chosen to provide a beautiful surface that serves as a consistent canvas for our carefully crafted finishes.

Clear Mixed Grain

Clear Mixed Grain (CMG) Cypress features a blend of flat and vertical grain patterns, offering a natural and varied appearance across the installation. This grade is sorted to ensure it is free of most prominent knots, providing a clear surface that highlights the wood's organic grain structure. When combined with our factory finishes, CMG creates a sophisticated, textured look suitable for large-scale interior wall and ceiling applications where a more dynamic visual is desired.

- Contains both vertical grain and wider grain patterns
- Some boards will contain v-shaped cathedraling
- May occasionally contain very small knots

Clear Vertical Grain

Clear Vertical Grain (CVG) Cypress is our highest grade, specified for projects where maximum dimensional stability and a clean, linear aesthetic are required. The vertical grain orientation significantly reduces the wood's natural tendency to expand or contract, making it the ideal selection for exterior siding in challenging climates. CVG provides a uniform, consistent backdrop for our artisan finishes, resulting in a disciplined and modern architectural look.

Cypress C&BTR MG Milling Profiles

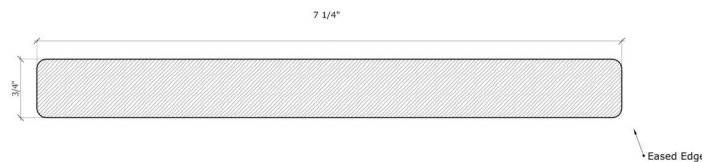

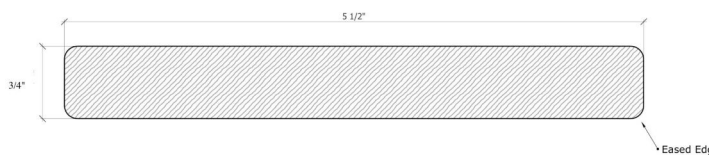

Hewn's Cypress C&BTR MG is sold in a variety of widths and thicknesses, noted in our specification documents. All of our Cypress is milled to your requested specifications in-house, allowing for the highest level of oversight throughout the entire production process. Our most common profiles are shown below in both 1x6 and 1x8 widths.

Hewn has the capability to create custom milling knives in-house. For more information on custom milling options, please contact one of our sales representatives.

Cypress C&BTR MG 1x Square Edge Profiles

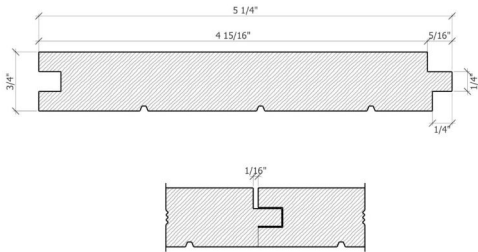

Cypress CMG 1x6 (3/4" X 5-1/2") Square Edge with Eased Edges

Cypress CMG 1x8 (3/4" x 7-1/4") Square Edge with Eased Edges

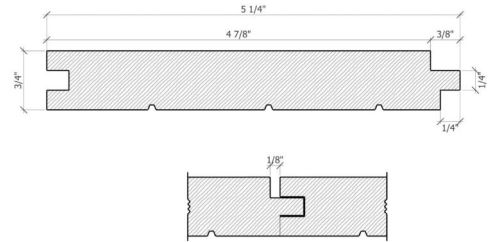

Cypress C&BTR MG T&G Milling Profiles

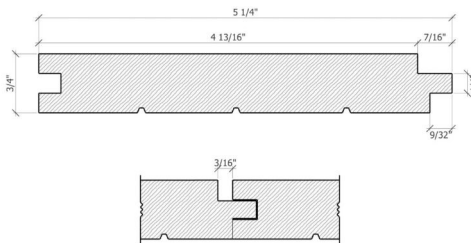

Cypress CMG 1x6 (3/4" x 5") T&G 1/16" Fineline 1/4" Tongue

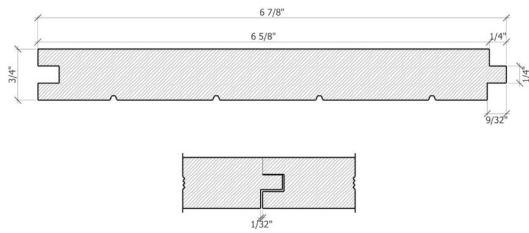

Cypress CMG 1x6 (3/4" x 5") T&G 1/8" Fineline 1/4" Tongue

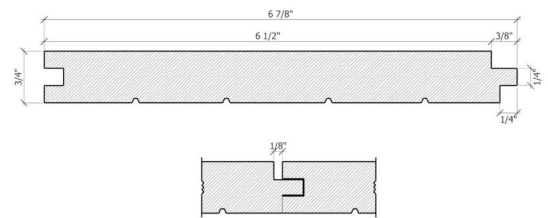

Cypress CMG 1x6 (3/4" x 5") T&G 3/16" Fineline 1/4" Tongue

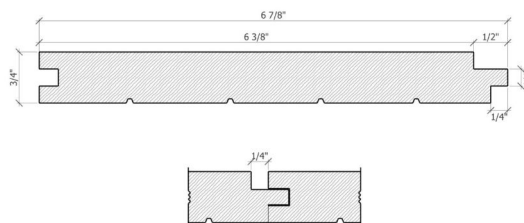

Cypress CMG 1x8 (3/4" x 6 5/8") T&G Tight 1/4" Tongue

Cypress CMG 1x8 (3/4" x 6 5/8") T&G 1/8" Fineline 1/4" Tongue

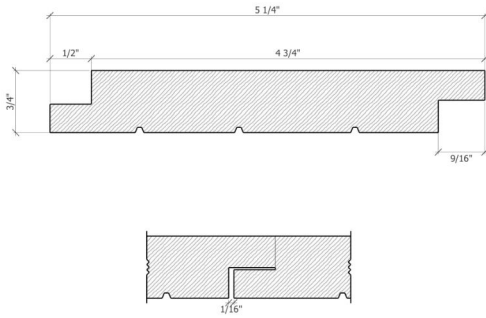

Cypress CMG 1x8 (3/4" x 6 5/8") T&G 1/4" Fineline 1/4" Tongue

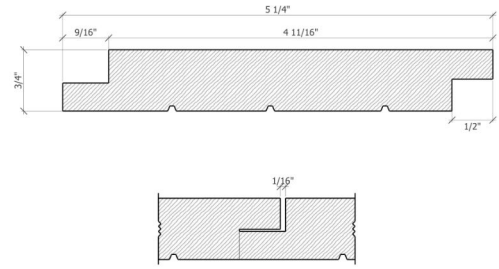

Cypress C&BTR MG Shiplap Profiles

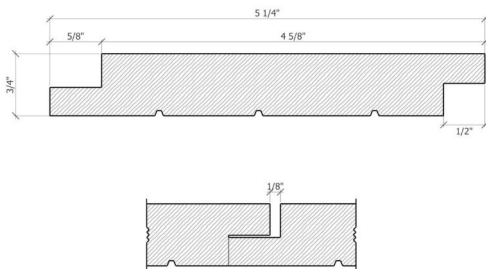

Cypress CMG 1x6 (3/4" x 4 3/4") Shiplap Tight

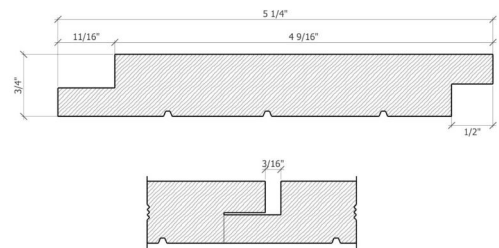

Cypress CMG 1x6 (3/4" x 4 3/4") Shiplap 1/16" Gap

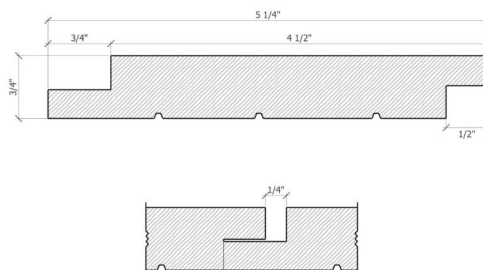

Cypress CMG 1x6 (3/4" x 4 3/4") Shiplap 1/8" Gap

Cypress CMG 1x6 (3/4" x 4 3/4") Shiplap 3/16" Gap

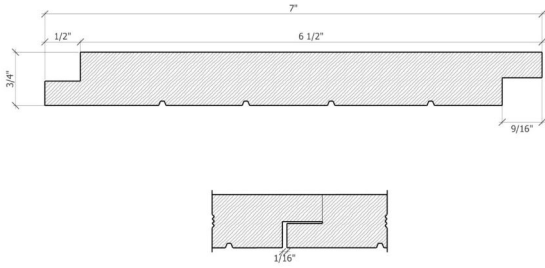

Cypress CMG 1x6 (3/4" x 4 3/4") Shiplap 1/4" Gap

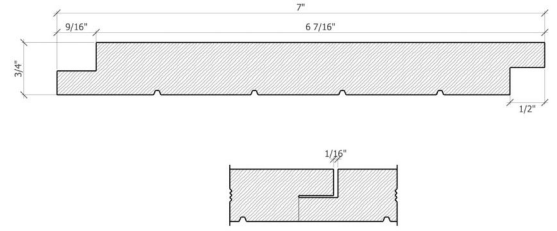

Cypress C&BTR MG Shiplap Profiles (Continued)

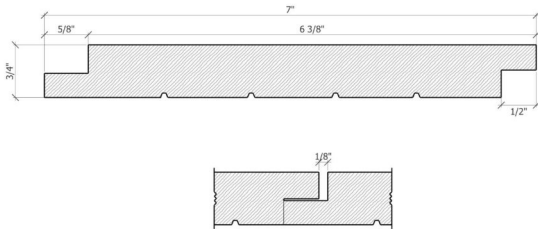

Cypress CMG 1x8 (3/4" x 6 1/2") Shiplap Tight

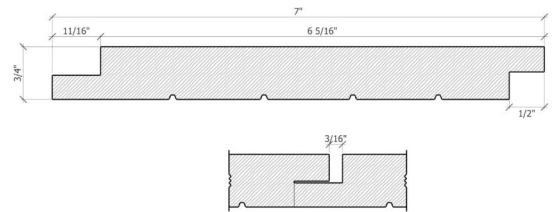

Cypress CMG 1x8 (3/4" x 6 1/2") Shiplap 1/16" Gap

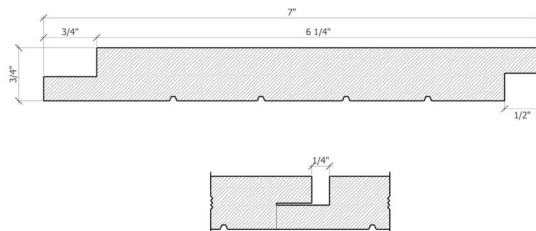

Cypress CMG 1x8 (3/4" x 6 1/2") Shiplap 1/8" Gap

Cypress CMG 1x8 (3/4" x 6 1/2") Shiplap 3/16" Gap

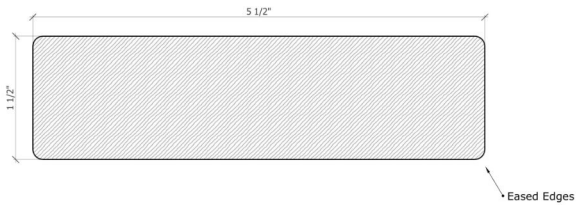

Cypress CMG 1x8 (3/4" x 6 1/2") Shiplap 1/4" Gap

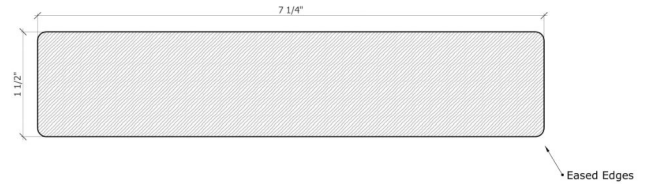

Cypress C&BTR MG 2x Square Edge Profiles

Cypress CMG 2x6 (1-1/2" X 5-1/2") Square Edge with Eased Edges

Cypress CMG 2x8 (1-1/2" X 7-1/4") Square Edge with Eased Edges

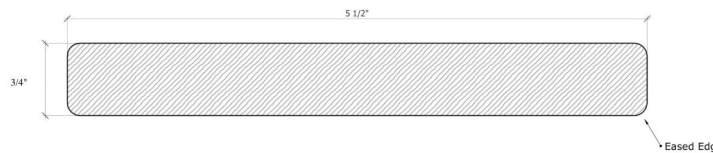

Cypress C&BTR VG Milling Profiles

Hewn's Cypress C&BTR VG is sold as 1x6 material. All of our Cypress is milled to your requested specifications in-house, allowing for the highest level of oversight throughout the entire production process. Our most common profiles are shown below.

Hewn has the capability to create custom milling knives in-house. For more information on custom milling options, please contact one of our sales representatives.
