

Finish-Matched Screws

Shown in Van Dyke for Rustic Reclaimed Cedar

Hewn's Trim-Head decking screws are available in stainless steel for superior corrosion resistance in marine or high-exposure environments where wood siding is installed. Our Trim-Head screws provide a clean finish because of their special head design, and are available with painted heads in colors that match our siding finishes.

Specifications

Model No.	S07225FTB
Coating/Material	Type 305 Stainless Steel
Screw Size	#7
Length (in.)	2 1/4
Head Diameter (in.)	0.230
Drive Type	T15 6-Lobe
Head Type	Trim Head
Thread Type	Coarse Threads
Point Type	Type-17 Point
Approx. Count per Lb.	138
Packaging Qty.	3000

Features

- Trim-style head is less noticeable on Hewn siding finishes
- Type-17 point for fast starts
- Coarse threads on approximately 2/3 of the shank draw the decking and other material tightly to the framing
- 6-lobe drive provides drive control and long bit life
- Choose Type 316 for seaside applications and superior corrosion resistance
- Predrilling recommended near board ends to prevent splitting
- T15 6-lobe drive (replacement bit model BIT15T-2-R2)
- Heads painted for a concealed appearance
